

Repeat prescriptions?

When you order your repeat prescription check how much medicine you have left.

Only order what you need

Unused medicines cost the NHS around
£300 million every year.

Only ordering what you need helps...

**Stop medicine
shortages**

**Stop medicines at
home going out of date**

**Protect the
environment**

Not using some of your medicines? Speak to your GP practice about a medication review – they can help make sure your prescription is right for you.
