

**South East London Integrated Medicines Optimisation Committee
(SEL IMOC)**

**Withdrawal of SEL guidance for managing erectile dysfunction in
primary and secondary care (issued December 2020)**

Following the development and approval of the SEL Acute Provider Collaborative (SEL APC) urology primary care guidelines for adults, the SEL guidance for managing erectile dysfunction (ED) in primary and secondary care has been withdrawn.

The SEL APC primary care adult urology guidelines include information on the diagnosis and pharmacological management of a number of urological conditions, including the management of ED in primary care.

The previous SEL guidance on the management of ED has been incorporated within the SEL APC guidelines. The medication related content within the SEL APC urology guidelines has been reviewed and approved through the SEL IMOC.

The SEL APC urology primary care guidelines for adults can be accessed [here](#).
