Southwark Council	1. GP practice to prescribe first sharps bin for patient 2. Note that as part of the waste management process, the GP, nurse or health visitor must complete and return a clinical and healthcare waste collection application form to the Council. 3. Once the Council has received the completed form, they will contact the patient to make collection arrangements. The Council will supply the patient with replacement sharps bins. The bag collection is a weekly collection and the box/sharps collection is a call when ready service.	<ol> <li>Specialist team to provide initial clinical waste bag when FreeStyle Libre® initiated</li> <li>A clinical and healthcare waste collection application form will need to be completed by the GP/HCP detailing the residents name, address and type of waste that needs collecting.</li> <li>Once the council has received the completed form, they will contact the patient to make collection arrangements. The council will supply the patient with replacement bags and boxes upon collection.</li> <li>The bag collection is a weekly collection and the box/sharps collection is a call when ready service.</li> </ol>
