

South East London Area Prescribing Committee

**Withdrawal of formulary recommendation number 016
(issued November 2014):**

**Golimumab (Simponi®) injection for the treatment of ulcerative
colitis**

This formulary recommendation has been withdrawn from local use as it has been superseded by NICE Technology Appraisal Guidance (TAG) number 329: *Infliximab, adalimumab and golimumab for treating moderately to severely active ulcerative colitis after the failure of conventional therapy.*

The NICE TAG (published February 2015) can be accessed [here](#).

The local SEL IBD pathways can be accessed [here](#).
