

South East London Area Prescribing Committee

**Withdrawal of formulary recommendation number 023
(issued January 2015):**

**Vedolizumab (Entyvio®) intravenous infusion for the treatment of
moderate to severe Ulcerative Colitis (UC) in adults**

This formulary recommendation has been withdrawn from local use as it has been superseded by NICE Technology Appraisal Guidance (TAG) number 342: *Vedolizumab for treating moderately to severely active ulcerative colitis*.

The NICE TAG (published June 2015) can be accessed [here](#).

The local SEL IBD pathways can be accessed [here](#)

.
