

Ardens has been asked by SEL to produce tools to help record delayed tests in SEL due to the cyber attack.

These tools are being published tonight (12/6/24) and will be available for all practices across SEL. There are two main components.

1. **Notes stamp protocol** - This protocol will add a code (care incomplete – service not available 915901000006107 (EMIS code)) with the following free text : *'Patient of a SEL practice affected by the Synnovis cyber attack on the 03.06.2024. Pathology services have been severely restricted during this time'* to the notes automatically every time a patient record is loaded and will record that this interaction occurred at a time when the cyberattack was preventing laboratory specimens from being processed.
2. **SEL test delay protocol and template** - In addition users that wish to record a specific type of test has been delayed can use the template to do this. The template is accessed by double-clicking the alert in the bottom right hand corner of the screen entitled "Record Test Delay (SEL)". When the template is launched the type of test can be recorded and the priority is recorded alongside this in free text. There is also a pop-up that appears on saving a consultation to remind users to record a delayed test. This pop-up is suppressed if the user has already manually recorded a delayed test using the alert as above.

Template Runner			
<b>Delayed phlebotomy request</b>			
<input type="checkbox"/> Blood test - ROUTINE	Text	ROUTINE PRIORITY - SEL delayed blood test	04-Jun-2024
<input type="checkbox"/> Blood test - IMPORTANT	Text	IMPORTANT PRIORITY - SEL delayed blood test	04-Jun-2024
<input type="checkbox"/> Blood test - URGENT	Text	URGENT PRIORITY - SEL delayed blood test	04-Jun-2024
<b>Delayed Swab or other sample TO BE COLLECTED BY CLINICIAN</b>			
<input type="checkbox"/> Swab/other test - ROUTINE	Text	ROUTINE PRIORITY - SEL delayed swab/other test	No previous entry
<input type="checkbox"/> Swab/other test - IMPORTANT	Text	IMPORTANT PRIORITY - SEL delayed swab/other test	No previous entry
<input type="checkbox"/> Swab/other test - URGENT	Text	URGENT PRIORITY - SEL delayed swab/other test	No previous entry
<b>Delayed Urine test TO BE DROPPED OFF BY PATIENT</b>			
<input type="checkbox"/> Urine test - ROUTINE	Text	ROUTINE PRIORITY - SEL delayed urine test	05-Jun-2024
<input type="checkbox"/> Urine test - IMPORTANT	Text	IMPORTANT PRIORITY - SEL delayed urine test	05-Jun-2024
<input type="checkbox"/> Urine test - URGENT	Text	URGENT PRIORITY - SEL delayed urine test	05-Jun-2024
<b>Delayed Faeces test TO BE DROPPED OFF BY PATIENT</b>			
<input type="checkbox"/> Faeces test - ROUTINE	Text	ROUTINE PRIORITY - SEL delayed faeces test	No previous entry
<input type="checkbox"/> Faeces test - IMPORTANT	Text	IMPORTANT PRIORITY - SEL delayed faeces test	No previous entry
<input type="checkbox"/> Faeces test - URGENT	Text	URGENT PRIORITY - SEL delayed faeces test	No previous entry
<b>Other Tests (PATIENT COLLECTS AND BRINGS TO PRACTICE)</b>			
<input type="checkbox"/> Other lab test - ROUTINE	Text	ROUTINE PRIORITY - SEL delayed lab test	No previous entry
<input type="checkbox"/> Other lab test - IMPORTANT	Text	IMPORTANT PRIORITY - SEL delayed lab test	No previous entry
<input type="checkbox"/> Other lab test - URGENT	Text	URGENT PRIORITY - SEL delayed lab test	No previous entry

3. **SEL delayed test found** – this alert will appear in the QOF box when viewing a record against which a delayed test has been recorded. An example is below:

**Delayed test found (SEL)**  
Blood test recorded on 12-Jun-2024 ROUTINE  
PRIORITY - SEL delayed blood test  
Lab test recorded on 12-Jun-2024  
IMPORTANT PRIORITY - SEL delayed  
swab/other test  
Urine test recorded on 12-Jun-2024 URGENT  
PRIORITY - SEL delayed urine test
