

What is the Joint Forward Plan

Our Integrated Care Board Joint Forward Plan sets out our **medium term objectives and plans**, at both a borough level and from the perspective of our key care pathways and enablers, to ensure that we are developing a service offer to residents that:

- Meets the needs of our population.
- Demonstrates and makes tangible progress in addressing the core purpose of our wider integrated care system improving outcomes in health and healthcare, tackling inequalities in outcomes, experience and access, enhancing productivity and value for money and helping the NHS support broader social and economic development.
- Delivers **national Long Term Plan and wider priorities**, all of which resonate from a SEL population health perspective.
- Meets the statutory requirements of our Integrated Care Board.

Our Joint Forward Plan provides the following:

- A strategic overview of our **key priorities and objectives for the medium term.**
- A high level summary of the **short term actions** that we will take, working with partners, to ensure the key milestones that support us in meeting these medium term objectives are secured, with further underpinning detail included in our 2023/24 and subsequent operational plans.

This is our first Joint Forward Plan and it will be **refreshed annually** to:

- Take account of implementation and outcomes over the previous year, including any learning to be applied to our future plans.
- Reflect any changes required due to new or emerging issues or requirements, be they related to population health, feedback from our communities and service users or service delivery issues and opportunities.

What is the Joint Forward Plan

The Joint Forward Plan builds on the work we have been doing as a wider system and is driven by:

- Our Integrated Care Partnership integrated care strategy. It
 includes clear commitments around our Integrated Care
 Board delivery of the strategic objectives, outcomes and
 priorities we have collectively agreed as a wider partnership
 to working collaboratively to secure.
- Our borough based Local Health and Well Being Plans, and the work our Local Care Partnerships will take forward to secure these plans, harnessing the benefits of joint working and integration to do so.
- A consideration of the full breadth of underpinning care pathways and enablers that we will need to develop, improve and transform to meet these priorities.
- A focus on national priorities for the NHS, including the planned delegation of key services to Integrated Care Boards from NHS England.

In taking our Joint Forward Plan forward we are committed to:

- Improving population health and reducing inequalities.
- Improving and standardising our core service offer, quality and outcomes across primary care, community, mental health and acute services, plus across our key care pathways such as urgent and emergency care.
- Taking action to secure a sustainable health system, with a particular focus on finance, workforce, quality and performance.
- Developing the supporting system architecture and infrastructure required to secure success and embed sustainable change.
- Pushing the boundaries with regards evidence based innovation and transformation.
- Doing so in partnership with our communities, patients and service users to ensure coproduced approaches and solutions that are patient and service user centred. Our integrated care strategy was developed with extensive engagement and the feedback received has been used to inform our Joint Forward Plan.

How does it all fit together

Overall context of the SEL System plans

The SEL Joint Forward Plan sits within a suite of strategic and operational documents and plans that have been and are being produced from January – June 2023. These represent a potentially confusing set of outputs but are interlinked with a clear golden thread across them.

Integrated Care Strategy

- Integrated Care Partnership developed plan covering the NHS and Local Authorities.
- Work supported by significant engagement over summer 2022.
- Medium term focussed 3-5 year timeframe.
- High level secures an agreed vision, mission and the identification of 5 key strategic priorities for the SEL integrated care system, with further detail around the 5 priorities in development.
- Gives overarching consideration to key enablers and ways of working.

Published February 2023
Detailed work on priorities on going

- Integrated Care Board medium term NHS focussed plan - 3-5 year timeframe.
- Sets out ICB response to the integrated care strategy identified priorities
- PLUS plans for: meeting wider population needs, securing the key objectives of ICBs, delivery of national and local priorities and allocative approaches (medium term financial plan), with a focus on short term delivery milestones across all key areas of the ICB's planning functions.
- Planned engagement on the plan over Quarter 1 of 2023/24 - with a clear read across to local Health and Well Being Plans plus our integrated care strategy.

End 2022/23 draft Q1 engagement and final plan end June 2023

Operational Plan

- Integrated Care Board operational plan
 an overarching ICB plan and
 underpinning plans for the ICB's five
 major NHS providers.
- Short term 23/24 focussed plan, encompassing:
- Actions to secure Year one milestones for our integrated care strategy and Joint Forward Plan.
- National planning priorities and targets.
- A financial plan for 23/24, inclusive of the agreed application of the ICB's allocation.
- Detailed activity and workforce planning and performance trajectories.

Draft plans submitted 23 February Final plans submitted end March 2023

NHS South East London

How we have built our Joint Forward Plan

Our Joint Forward Plan has been developed bottom up – from our Local Care Partnerships, our care pathway programme and transformation boards and our enabler programmes, with work having taken place to ensure a read and link across these key building blocks.

Borough Plans

- A plan for each of Bexley, Bromley, Greenwich, Lambeth, Lewisham and Southwark boroughs.
- Driven by local health and wellbeing and local care partnership plans.
- Set out the key objectives and actions that will be taken forwards on a borough basis.
- Reflect needs of the population and a focus on reducing inequalities in access, experience and outcome.
- Connection and opportunities between the borough plans and the care pathway/service plans, with boroughs responsible for delivering key aspects of these SEL plans, tailored to the particular needs of their borough population.

Care Pathway/Service Plans

- A plan for prevention, urgent and emergency care, mental health, children and young people, learning disability and autism, planned care, maternity, cancer, long term conditions, primary care and palliative/end of life care.
- Set out the SEL vision, objectives, framework and approach for particular pathways and population groups.
- Key to driving forwards our commitment to reducing inequalities in service offer and experience, improving outcomes and value across our system.
- Recognise that delivery of agreed commitments and change will then be taken forwards in different ways through our 'SEL system of systems' e.g. within boroughs, with their delegated responsibility for community based services and through providers and our provider collaboratives.

Enablers

- SEL objectives and plans for key enablers workforce, estates, digital / data plus our approaches to population health management, sustainability, the green agenda, wider social and economic development and the development of our integrated care system.
- Our Medium Term Financial Strategy that sets out our planned allocation of ICB funding over the next five years.
- Set out overarching programmes of work, key connections to borough and care pathway plans plus enabler support for the delivery of the commitments made.
