### Information for patients requiring radiology exams

#### Attending hospital for an exam requested by your GP

South East London NHS has implemented a new electronic requesting system for radiology exams (X-Ray, Ultrasound, CT, MRI and Nuclear Medicine scans).

This means that when your GP wants you to have one of these diagnostic examinations, there will no longer be a paper request form. The results from this examination will also be sent back to the GP electronically. The process is slightly different depending on the type of exam.
