

For urgent help in a crisis, get support immediately

A mental health crisis can mean different things to different people. It can include:

- **Thinking about suicide or acting on suicidal thoughts,**
- **Severely self-harming,**
- **Experiencing psychosis, where you are out of touch with reality,**
- **Being in a situation that could put you or other people at risk.**

If you live in Kingston, Merton, Richmond, Sutton or Wandsworth and you need urgent mental health support, call NHS 111 and press 2 for the mental health option. You can also access urgent support by calling South West London and St George's Mental Health Crisis Line on 0800 028 8000.

Call 999 or attend A&E if someone's life is at risk – for example, risk of a medical emergency, serious injury or overdose, or if you have concerns about your physical health that require immediate medical attention. If you need help but it is not an emergency, dial 111 (press 2 for mental health advice and support).

Sutton Crisis Café

If you are struggling with how you are feeling or feel at risk of going into crisis, your local Recovery Café can help. Recovery Cafés are a free walk-in out of hours service where you can talk to people who will understand and help you.

Sutton Crisis Café, 63 Downs Road, Belmont, Sutton, SM2 5NR

Mental health support available

If you are not in crisis and you would like to get NHS support, usually a referral from a General Practitioner (GP) or other professional is needed. The process involves an appointment and initial assessment with the GP or Primary Care Mental Health Nurse - the decision for which level of support you might receive is made based on the initial assessment.

To get help from the Sutton Single Point of Access (SPA) you can contact your GP or:

Recovery College

The South West London and St George's Mental Health NHS Trust Recovery College use a recovery-based approach to encourage people to become experts in their own self-care and wellbeing, giving students the tools they need to manage their conditions and for families, friends, carers and staff to better understand mental health conditions and support people in their recovery journey.
